

Greyhounds make great pets.

If only we could give each of our retired greyhounds their own personal ad. But as the RGT re-homes around three thousand dogs a year, it's just not possible.

We always need more people to adopt our dogs, so perhaps you could help? Retired greyhounds are gentle, intelligent animals who have devoted their early years to racing and now need some TLC in a loving family home.

They ask very little in return: regular walks and meals, the odd cuddle and maybe a warm basket by a cosy fire. So if you're looking for a devoted companion to share happy times, look no further. Simply log onto our website or call us on:
